FEATURES OF NEW LICENSES

Front Laminate - PolaDual™

Front Laminate - Ultraviolet Ink

- Each card is laminated with a tamper resistant coating that increases the card's durability and security. The front laminate shows a pattern of the Missouri State Seal that changes color as the license document is tilted for viewing. The laminate also shows an ultraviolet ink pattern when placed directly under a blacklight source.
- Printed data overlaps the ghost portrait image for added security.
- The "Writable Back Surface" is capable of accepting and retaining data written by hand using a permanent ink marker.
- The 2-D barcode on the back contains all text data from the front of the license plus a four-character alpha county code.

PREVIOUS FORMAT

Documents issued using this format should expire no later than year 2010.
